

Warning Tape

PMAT023W

TECHNICAL
DATA
SHEET

Description

PMAT023W Warning tape is constructed with PVC adhesive based suitable for marking equipment, hazardous areas and for road traffic signs.

Physical Properties

Total Thickness	5.1 mils (0.13mm)
Peeling force	≥ 28N/ 25mm
Tensile strength	≥ 62N/ 25mm
Adhesion to Steel	<100 volts
Elongation	80%
Maximum Temperature	80°C

Recommended storage condition: 65% Humidity, Temperature 23°C + 3°C. Standard Shelf life @ 25°C: 12 month

Application Guide

- Marking equipment
- Harzardous areas in office, parking lot and warehouse

Sku Table

Sku No	Color	Tape Width	Roll Length
417144	Yellow/Black	1.89"	24.06 yds
417164	Red/White	1.89"	24.06 yds
417174	Green/White	1.89"	24.06 yds
