

Blood Bag Label

PMAL7026

DATA SHEET

Description

PMAL7026 is facestock consist of cellulose, kaolin, acrylic based resin with heat-sensitive adhesive suitable to be applied on blood bag.

Physical Properties

Facestock Composition	Impregnated paper/Acrylic based resin
Thickness	95 $\mu\text{m} \pm 10\%$
Basic Weight	90 g/m ² $\pm 10\%$
Adhesive Composition	Heat-sensitive acrylic based adhesive
Release Liner	N/A
Release Force	N/A
Min. Application Temp.	N/A
Service Temp.	N/A
Storage Stability	One year stored at 10-30°C and <70% RH Avoid direct heat from sunlight or any heat source
Packaging	Label roll in 3" paper core and wrap with single shrink film

Adhesive Application Guide

Polycarbonate	ABS	Cleanroom Paper
Polyester	Rubber	Carton Box
Polyethylene	Glass	PVC (Blood Bag) •
Polypropylene	Metal
